

## CAMO CLIPDRIVE™

Stand tall, target screws easily, and drive clips up to **5X faster** on leading grooved decking with the ClipDRIVE tool. Attaches to your drill and fastens CAMO Universal Deck Clips.

Ergonomic tool features a height-adjustable handle, making it the perfect fit for the whole crew.

## UNIVERSAL HIDDEN DECK CLIPS

CAMO universal hidden deck clips work with top grooved deck boards and **help you install 2X faster**.

- Up to **88% stronger** than other clips
- Install with the included **NEVER-MISS™ Guide**
- Fasten up to **5X faster while standing** with **CAMO DRIVE or ClipDRIVE tool**.

### CAMO EDGE

For 90° deck patterns

### CAMO EDGE<sup>X</sup>

For angled deck patterns and double joists

### CAMO EDGE<sup>X</sup>METAL

For any installation of grooved boards on 14-18GA metal joists

## STARTER CLIPS

Avoid face fastening and secure the first and last grooved board with **STARTER Clips**.

## OUR PRODUCTS ARE BACKED BY A CAMO® WARRANTY.

Install deck boards according to manufacturer's instruction, and if our **clips** or **Edge deck screws** damage the board or cause the board to fail, we'll replace the boards. That means you can confidently use our clips and screws with Trex®, TimberTech®, AZEK®, Deckorators®, Fiberon, and more.

**Tools** will be free from defects in material and quality for the first year from the date of purchase. Additionally, National Nail will repair or replace defective products at no charge.

**Face fasteners** will be free from defects in material and quality for the life of the product and are guaranteed against rust and corrosion causing product failure.

Subject to limitations, read the full warranties at [camofasteners.ca](http://camofasteners.ca)

## The Better Way to Build a Deck

## DRIVE™ SYSTEM

CAMO  
**DRIVE™**

The versatile tool allows you to stand up to install CAMO Collated Edge Screws for a hidden finish and CAMO Collated Face Screws for a traditional look. DRIVE can also be used for grooved installs to fasten CAMO Universal Deck Clips.

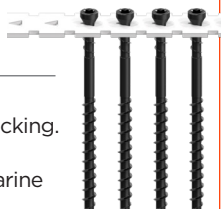

### COLLATED DECK SCREWS

For exclusive use with DRIVE stand-up tool

#### EDGE SCREWS

Use with pressure treated, cedar, redwood, composite, and PVC decking.

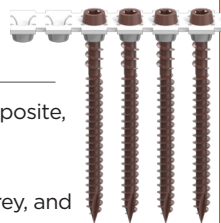

Available in PROTECH and 316 Marine Grade Stainless Steel

#### FACE SCREWS FOR COMPOSITE

Use with composite, capped composite, and PVC decking.

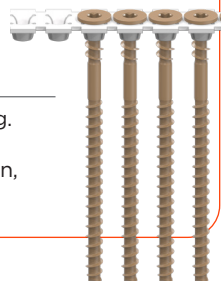

Available in PROTECH (Brown, Grey, and Tan) or Bright 305 Stainless Steel

#### FACE SCREWS FOR PRESSURE TREATED

Use with pressure treated decking.

Available in PROTECH (Green, Tan, Brown and Red)

## MARKSMAN SYSTEM

CAMO  
**MARKSMANPRO TOOLS**

MARKSMAN tools clamp to and space your boards and direct CAMO Edge Screws into the side of the board, leaving a fastener-free surface.

### MARKSMAN PRO™

3/16" spacing, for composite, capped composite, PVC, hardwood, redwood, and cedar

### MARKSMAN PRO-X1

1/16" spacing, for redwood, cedar, and pressure treated lumber

### MARKSMAN PRO-NB

3/16" spacing, for all boards 3-1/4"-5" wide, for composite, capped composite, PVC, hardwood, redwood, cedar, and pressure treated lumber

### MARKSMAN™ EDGE

No spacing, for pressure treated lumber

## EDGE DECK SCREWS

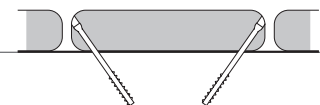

Screws feature a rake tip that augers material out of the board, and a trimhead that creates a discreet point of entry.

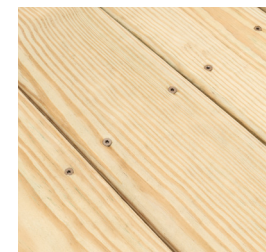

Available in  
PROTECH and  
316 Marine Grade  
Stainless Steel

### HOW IT WORKS :

**EDGE FASTENED**  
Fastener Free Surface  
Reduces Splitting  
Less Cracking  
Easier Maintenance

**FACE FASTENED**  
Visible Fasteners  
Prone to Splitting  
Cracks around Surface  
More Maintenance

CAMO  
**LEVER**

The board bending and locking tool **speeds up install and reduces the labor you need.**

**LEVER locks rows of grooved boards** and clips in place and **straightens warped boards** so you can quickly fasten.
